HEALTH METRICS

Metric	Value	Benchmark
State of Health (SoH)	35.0%	≥80% = Healthy
Remaining Useful Life	0 cycles	Cycles to end-of-life
Charging Efficiency	75.9%	≥90% = Good
Overall Status	AT-RISK	healthy / watch / at-risk

STATE OF HEALTH VISUAL

RECOMMENDATION

- ✗ Plan for immediate replacement.
- ✗ Avoid deep discharge (below 20% SoC) and high-temperature charging.
- ✗ Do not use for high-load applications until replaced.
